MY PROFILE

I view myself as a passionate programmer, whose experience includes web-, mobile- and pc-development, most often in the world of video games. I've worked in different programming languages, such as HTML, CSS, Javascript, C# and python. I view myself as a very competent object oriented programmer, who focuses on code optimization and performance.

EDUCATION

Higher Preparatory Examination Programme (HF)   2017 - 2019
Vejen Gymnasium & HF • General Upper Secondary Education Certificate

At HF in Vejen i primarily studied campaign management, advertisement strategy, branding, product placement, cooperation, social studies and math.

Computer Science & Game Development   2021 - 2024
Dania Games Grenaa • Vocational

Since starting my studies at Dania Games, I have developed more than 10 games and learned to program using python, Javascript, C# and SQL. I have networked in both C# and python and have written json conversions in C# and Javascript.

EDUCATIONAL COURSE

Unity Development with C# • *Vallekilde Højskole*
Feb 2021 - July 2021

This course was the start of my programming career. Here I learned the basics of C# and used what I learned to develop my first two video games in Unity.
